

The 4th Annual

COALBED METHANE

The Only Conference Dedicated to CBM Investments, Field Development & Technology

SAVE WITH MORE WITH THE GROUP BOOKING PACKAGE!

11 — 14 July 2011 | Hilton Hotel, Singapore

### KEY SPEAKERS:

#### CBM OPERATORS

**Sammy Hamzah**  
President,  
PT EPHINDO, Indonesia

**Prashant Modi**  
President & COO  
Great Eastern Energy  
Corporation Limited,  
India

**John Phillips**  
CEO,  
Blue Energy, Australia

**Peter Cockcroft**  
Managing Director,  
European Gas, Europe

**Michael McElwrath**  
CEO & President,  
Far East Energy  
Corporation, China

**Kiam Poon Tee**  
CEO, Fortune Oil, China

**Kenny Chan**  
Chairman, Enviro Energy, China

**Ian Gorman**  
Director & CEO, Molopo Energy, Australia

#### GOVERNMENT

**Zhou Fengqi**  
Senior Energy Advisor, Energy  
Research Institute,  
National Development &  
Reform Commission  
(NDRC), China

**Mr Askolani**  
Director Budget Policy,  
Fiscal Policy Office,  
Ministry of Finance,  
Indonesia

**Hanan Nugroho**  
Senior Energy Planner,  
National Development  
Planning Agency  
(BAPPENAS), Indonesia

**FU Xiaokang**  
Director of International  
Cooperation & Exploration,  
China United Coalbed  
Methane (CUCBM), China

#### POWER GENERATION

**Chairani Rachmatullah**  
Senior Manager, Primary  
Energy, Planning &  
Evaluation,  
PT PLN, Indonesia

### What's New for 2011?

- 28+ CBM expert speakers
- 13+ regulatory, project & investment updates
- **Special focus** on key CBM markets: Indonesia, China, Australia & India
- **2 dedicated streams** focusing on
  - A) CBM Market Outlook & Commercial Opportunities
  - B) CBM Field Development

### What's Hot in the CBM Sector this Year?

- Opportunities for investment in India, China, Australia & Indonesia
- The role of CBM in the future energy mix: CBM vs shale vs LNG
- Strategic CBM business models
- Partnerships & cooperation for CBM development
- Updates on fiscal policies & investment climates for foreign operators
- Latest project updates from CBM operators
- CBM field development best practices & advances in technology
- Opportunities to diversify your unconventional gas portfolio

Pre & Post Add-Ons To Choose From:

**Pre-Conference Symposium: Investing & Acquiring Unconventional Gas Assets**

Monday, 11 July 2011, 9am – 5pm

**Pre-Conference Workshop: CBM Water & Environment Management**

Monday, 11 July 2011, 9am – 5pm

**Post-Conference Workshop: Appraising & Developing CBM Reservoirs**

Thursday, 14 July 2011, 9am – 5pm

The 4th Annual

COALBED METHANE

The Only Conference Dedicated to CBM Investments, Field Development & Technology

CATCH THE BIRD EARLY RATES & SPECIAL RATES TO SAVE!

11 — 14 July 2011 | Hilton Hotel, Singapore

## KEY SPEAKERS:

### CBM OPERATORS

- **Sammy Hamzah**, President, **PT EPHINDO**, Indonesia
- **Kiam Poon Tee**, CEO, **Fortune Oil**, China
- **Michael McElwrath**, CEO & President, **Far East Energy Corporation**, China
- **Kenny Chan**, Chairman, **Enviro Energy**, China
- **Prashant Modi**, President & COO, **Great Eastern Energy Corporation Limited**, India
- **John Phillips**, CEO, **Blue Energy**, Australia
- **Peter Cockcroft**, Managing Director, **European Gas**, Europe
- **Ian Gorman**, Director & CEO, **Molopo Energy**, Australia
- **Vilas Tawde**, General Manager (Surface Facilities), **Essar Exploration & Production**, India

### GOVERNMENT

- **Zhou Fengqi**, Senior Energy Advisor, **Energy Research Institute, National Development & Reform Commission (NDRC)**, China
- **Mr Askolani**, Director Budget Policy, **Fiscal Policy Office, Ministry of Finance** Indonesia
- **Hanan Nugroho**, Senior Energy Planner, **National Development Planning Agency (BAPPENAS)**, Indonesia
- **FU Xiaokang**, Director of International Cooperation & Exploration, **China United Coalbed Methane (CUCBM)**, China

### POWER GENERATION

- **Chairani Rachmatullah**, Senior Manager, **Primary Energy, Planning & Evaluation, PT PLN**, Indonesia
- **Lee Richards**, Director Sales Asia, **Capstone Turbine Generation**, Singapore

### FINANCE & LEGAL ADVISORS

- **Alberto Migliucci**, Head of Mining, **Energy & Oil & Gas, Southeast Asia Investment Banking, Credit Suisse**, Singapore
- **Mark Carkeet**, Partner, **Minter Ellison**
- **Norman Bissett**, Foreign Legal Consultant, **Hadiputranto, Hadinoto & Partners**, Indonesia

### ENERGY EXPERTS

- **Rajnish Goswami**, Head of Gas & Power, **Wood Mackenzie**, Singapore
- **Tony Regan**, Principal Consultant, **TriZen International**, Singapore
- **Huang Shengchu**, President, **China Coal Information Institute**, China
- **Sang Fengyun**, Project Manager/Principal Research Fellow **China Coal Bed Methane Clearinghouse, China Coal Information Institute**, China
- **Chris Hertle**, Global Market Leader – Water, **GHD**, Australia

### CBM RESERVOIR SPECIALISTS

- **Dr Larry Ryan**, Water Treatment Business Manager, **Halliburton**, Global
- **Mike Zuber**, Regional Technical Manager, **Schlumberger**, Middle East & Asia
- **Bruce Gunn**, Principal Advisor, **RISC**, Australia
- **Don McMillan**, Principal Engineer, **Oil Gas CBM Services**, Australia
- **Rod Bresnehan**, Principal Consultant – Petroleum Engineering, **Bresnehan & Associates**, Australia
- **Adam Harris**, Gas Business Manager, **Honeywell Process Solutions**, Asia Pacific

## Latest CBM Project Updates On:

- Sekayu Block, South Sumatra Indonesia / Sangatta West & Kutai Block East Kalimantan, Indonesia
- Raniganj Block & Mannargudi Block, India
- Bowen Basin, Galilee Basin & Maryborough Basin, Queensland Australia
- Mungi Gas Field, Queensland Australia
- Liulin CBM Block, China
- Qinshui Basin & Xinjiang, China
- Shouyang Block, Shanxi Province China

## 10 Reasons Why You Should Attend the 4th CBM Conference

- 1 The only CBM focused conference in Asia that examines CBM investments, field development & technology
- 2 Dedicated field development & technology sessions for your CBM project teams
- 3 Key policy & project updates from Indonesia, China, India & Australia
- 4 An examination of CBM in the future energy mix of unconventional gas & LNG
- 5 Market outlooks & commercial opportunities in key CBM markets
- 6 Network with 70% of Oil & Gas & Independent CBM Companies
- 7 Meet with CEO, VP & senior management decision makers
- 8 New CBM water management & environment focused workshop
- 9 Equip yourself with advanced CBM strategies & technology
- 10 Learn how to invest and acquire unconventional gas assets

## Value Added

Pre & Post Add-Ons To Choose From:

**Pre-Conference Symposium: Investing & Acquiring Unconventional Gas Assets**  
Monday, 11 July 2011, 9am – 5pm

**Pre-Conference Workshop: CBM Water & Environment Management**  
Monday, 11 July 2011, 9am – 5pm

**Post-Conference Workshop: Appraising & Developing CBM Reservoirs**  
Thursday, 14 July 2011, 9am – 5pm

## Choose from 3 Value Added Pre & Post Special Focus Days:

### Pre- Conference Symposium:

Monday | 11 July 2011 | 9am — 5pm

### Acquiring & Investing in Unconventional Gas Assets

“A few years ago the United States was ready to import gas. In 2009 it had become the world's biggest gas producer. This is phenomenal, unbelievable.”

*Anne- Sophie Corbeau, Senior Gas Expert, IEA, January 2011.*

According to the IEA, “supplies of natural gas could last more than 250 years if Asian & European economies follow the US unconventional reserves”. As unconventional gas becomes more and more economically viable to produce, countries around the world are now rushing to replicate the US success. While Australia is set to take the lead in unconventional gas development, China, India and Indonesia are close behind.

With significant investment and acquisition activity expected to rise globally, this pre-conference symposium offers you the chance to keep up with the changing nature of gas markets and natural gas supply, the investment trends and opportunities to invest and diversify your unconventional gas portfolio.

#### 9.00 Chairman's Opening Remarks:

**Tony Regan**, Principal Consultant, **Trizen International**, Singapore

#### 9.10 Investment Trends in Unconventional Gas Markets

- Overview of Asia-Pacific unconventional gas players
- Recent mergers and acquisition activity in unconventional gas assets
- Role of juniors vs increasing role of oil majors and NOCs in unconventional gas markets
- Finance issues in current market conditions

**Alberto Migliucci**, Head of Mining, Energy & Oil & Gas, Southeast Asia Investment Banking **Credit Suisse**, Singapore

#### 10.00 Opportunities for Shale Gas Commercialization in Asia

- Lessons from the US
- Market opportunity for Shale Gas
- Challenges to unlock Shale potential

**Rajnish Goswami**, Head of Power & Gas, Middle East & Asia, **Wood Mackenzie**, Singapore

#### 11.00 Morning Networking & Refreshment Break

#### 11.30 Investing in Australia's Unconventional Gas Sector

- Overview of Australia's unconventional resource sector including CBM-LNG
- Australia's legal structure, regulations and partnership laws
- JV arrangements and foreign investment in Australia
- Tax considerations
- Other legal issues for investing in Australia's unconventional gas sector

**Mark Carkeet**, Partner, **Minter Ellison**, Australia

#### 12.30 Legal Framework & Recommendations for Investing in Indonesian Unconventional Gas Projects

- Legal framework
- Overview of the Indonesian CBM PSC
- Project risks
- Recommendations for foreign investors

**Norman Bissett**, Foreign Legal Consultant, **Hadiputranto, Hadinoto & Partners**, Indonesia

#### 1.30 Networking Luncheon

#### 2.30 Commercial Fundamentals of Unconventional Gas

- Defining terminology and acronyms used for unconventional CBM & Shale Gas
- How CBM & Shale Gas differ to conventional Oil & Gas
- Reviewing resource and reserve classifications
- Overview of the economics for CBM & Shale Gas projects

**Don McMillan**, Principle Engineer, **Oil Gas CBM Services**, Australia

#### 5.00 End of Pre-Conference Symposium

### Pre-Conference Workshop:

Monday | 11 July 2011 | 9am — 5pm

### CBM Water & Environment Management

- A review of the challenges for CBM operators associated with water management
- Hydrogeology and water curve estimation
- The regulatory and social environments in Australian context
- The varying degrees of quality of water and impacts on treatment and reuse
- Water collection and recycling options
- Dams – overview of regulation, design principles and operational challenges
- Beneficial reuse options and key drivers
- Options for management of brine including solar and thermal evaporation and crystallization
- Case examples of water management of CBM gas wells in Australia
- The issues for regulators and CBM operators based on international experience

**Chris Hertle**, Global Market Leader – Water, **GHD**, Australia

A Chemical Engineer with more than 25 years' experience, Chris aims to develop and strengthen our client and stakeholder relationships within the global water industry. Enhancing GHD's offering in the industrial water and waste management areas are his key focus points, along with leveraging GHD's global network to share water insight from around the world.

Having joined GHD more than 16 years ago, Chris is an active member of GHD's Technical Services Advisory Group and also played a key role in helping roll out GHD's Innovation program in 2008. Chris aims to deliver innovative, sustainable solutions to clients and leverage these outcomes to grow the firm. He has been involved in numerous municipal and industrial water projects involving advanced treatment for energy recovery and water recycling. Chris was involved in the introduction of membrane bioreactors into Australia and has been involved with the CBM industry water management.

Chris has presented many papers at national and international forums and is currently a member of the Water Project Group for the World Business Council for Sustainable Development.

### Post-Conference Workshop:

Thursday | 14 July 2011 | 9am — 5pm

### Appraising & Developing CBM Reservoirs

- CBM is not Oil and Gas
  - CBM Vs Conventional
- Background to the resource
  - Geology overview
  - Permeability
  - Skin does not mean damage
- Methodology of resource and reserve calculation
  - Pitfalls and typical mistakes discussed
- Gas Deliverability
  - How to identify “Sweet Spots”?
  - Methods of predicting field performance
  - Stress Vs Production profile
  - Forecasting
- Targeted Production & Completion Strategies & Technologies to Stimulate CBM Production
  - Characteristics of CBM production
  - Understanding regional structural geology and the relationship to gas production profile
  - Completion strategy Barefoot and Fracture Stimulation and Horizontal wells – Bowen & Surat Basin experience
  - Optimizing fracture stimulation
  - Production pilots overview of strategy

**Don McMillan**, Principal Engineer, **Oil Gas CBM Services**, Australia

Don McMillan has over 24 years experience with the oil and gas industry in Asia, Europe and Australia. He graduated from the University of NSW (Australia) with a Bachelor of Engineering and a Post Graduate Diploma in Petroleum Engineering. Don plays an active role in the Society of Petroleum Engineers, represents Queensland on the SPE Australian Council, and is the Technical Chairperson for the 2010 SPE APOGCE. He formed Oil Gas CBM Services four years ago and offers a broad range of services including, fracture stimulation, development strategies, asset valuation and reserves estimating & auditing. Don is currently consulting on projects in Australia, Asia and Europe.

8.00 **Registration & Morning Coffee**

9.00 **Chairman's Opening Remarks**

**Peter Cockcroft**, *Managing Director, European Gas & Chairman, Blue Energy, Australia*

**Asia-Pacific Outlook on Natural Gas**

9.10 **Asia-Pacific Gas Markets & Dynamics**

- Gas demand forecast to 2030
- Demand growing - but what are the barriers to bringing natural gas to market
- The role of LNG in Asia
- The role of CBM in Asia
- How vulnerable is CBM to being overshadowed by other gas streams, in particular LNG and shale gas

**Tony Regan**, *Principal Consultant, TriZen International, Singapore*

**Strategic CBM Business Models & Project Updates from India, Indonesia & Australia**

9.50 **A Close Examination of Commercializing CBM in India**

- Commercial production developments of the Raniganj block
- Strategy and commercial sale of gas
- Mannargudi (Tamil Nadu) CBM project updates
- Drilling strategy and targets to achieve
- Marketing strategy for the Mannargudi block

**Prashant Modi**, *President & COO, Great Eastern Energy Corporation Limited, India*

10.30 **Morning Networking & Refreshment Break**

11.00 **Current Update on the Mungi, Australia CBM Play & Commercialization Strategy**

- Proving up and developing the Mungi asset
- Update on production, drilling and results
- Enhancing Mungi gas value through vertical integration: the Mungi power generation project
- Insight on Australian Government support and post carbon taxed electricity market
- Next steps in the project pipeline

**Ian Gorman**, *Director & CEO, Molopo Energy, Australia*

11.40 **Achieving Full Scale CBM Development for Power Generation in Indonesia**

- Technical, commercial and political considerations for full scale CBM development in Indonesia
- Business model for commercializing CBM in Indonesia
- Current update on project and production in 2011
- Next steps to advance commercialization

**Sammy Hamzah**, *President, PT EPHINDO, Indonesia*

12.20 **Commercializing CBM Basins in Queensland, Australia**

- Overview of the Bowen, Galilee and Maryborough basin assets and reserve targets
- Project milestones and timelines to complete
- Drilling program and preliminary results
- Commercialization activity and strategy

**John Phillips**, *CEO, Blue Energy, Australia*

1.00 **Networking Luncheon**

Choose your own sessions from two different streams

**Stream A: CBM Market Outlook & Commercial Opportunities**

Chairman:

**Peter Cockcroft**, *Managing Director, European Gas & Chairman, Blue Energy, Australia*

2.20 **China's Gas Market Development: Past, Present & Future Scenario**

- A historical look at China's gas market structure
- Gas pricing mechanisms in China
- The role of CBM in meeting domestic gas demand

**Zhou Fengqi**, *Senior Energy Advisor, Energy Research Institute, National Development Reform Commission (NDRC), China*

3.00 **Indonesia's Gas Market, Development & Key Priorities for CBM Development**

- Overview of the gas industry in Indonesia: market structure and regulatory environment
- Meeting large domestic demand for natural gas in Indonesia
- Natural gas infrastructure for domestic and export usage
- Gas pricing in Indonesia
- Key priorities to advance commercialization of CBM in Indonesia

**Hanan Nugroho**, *Senior Energy Planner, National Development Planning Agency (BAPPENAS), Indonesia*

3.40 **Afternoon Networking & Refreshment Break**

4.10 **The Role of CBM for Power Generation in Fulfilling Indonesia's Future Demand for Medium Loader Power Plants**

- Analysis of PLN's fuel supply and costs for power generation to meet peak supply or power
- Current status of national gas supply for power generation in Indonesia
- Reducing fuel oil reliance and the role of CBM
- The role of private CBM producers to improve PLN's fuel mix

**Chairani Rachmatullah**, *Senior Manager, Primary Energy, Planning & Evaluation, PT PLN, Indonesia*

4.50 **Gas Pipelines & Distribution Plans for CBM Commercialization**

- Infrastructure development for the commercialization of CBM
- Gas Infrastructure plans- pipelines/distribution

5.30 **Chairman's Summary**

**Stream B: CBM Field Development**

Chairman:

**Rod Bresnehan**, *Principal Consultant - Petroleum Engineering, Bresnehan & Associates, Australia*

2.20 **Addressing the Challenges & Discrepancies Associated with Reserves Estimation**

- A brief overview of the resource classification/categorisation and reporting process
- Challenges associated with reserves estimation
- Criteria for achieving realistic estimates of reserves
- Australian reporting standards vs international reporting standards
- What are the discrepancies and how can these be addressed

**Bruce Gunn**, *Principal Advisor, RISC, Australia*

3.00 **CBM Wellhead Monitoring and Analysis - from Pilot to Production**

New wellhead monitoring and analysis technology is being used in the pilot phase of CBM projects to prove project feasibility. Based on experiences in Australia, the technology used for monitoring wellhead performance in the pilot phase, can also be utilised to lower CBM project costs and improve the leadtime to full scale production. This presentation details the new wellhead monitoring and analysis technology being developed in Australia, and discusses how it can be effectively utilised from the pilot phase of CBM projects to:

- Prove commercial feasibility of CBM projects
- Lower CBM project costs
- Improve CBM project leadtime to full scale production
- Efficiently maintain remote CBM operations
- Provide real time data to operations, commercial and management teams

**Adam Harris**, *Gas Business Manager, Honeywell Process Solutions, Asia Pacific*

3.40 **Afternoon Networking & Refreshment Break**

4.10 **A Review of CBM Drilling & Well Problems & New Techniques Developed**

- Overview of drilling problems to well bore damage
- Techniques to reduce overall drilling time
- Eliminating well damage and cost
- Improving wellbore stability

**Mike Zuber**, *Regional Technical Manager, Middle East & Asia, Schlumberger*

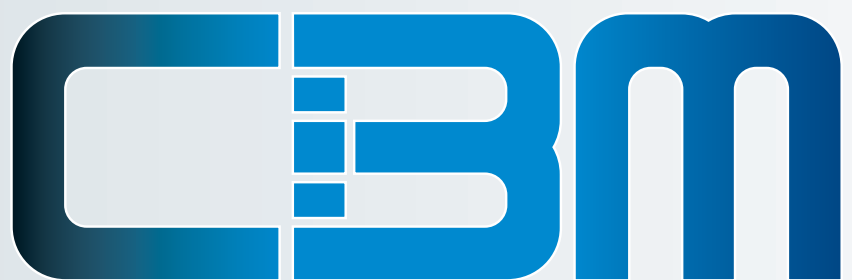

4.50 **Utilizing Microturbines for Distributed Power Generation on Wellhead Pumps for Efficient Operations**

- Microturbine energy systems for CBM field electrical demands
- Ensuring more operating hours, lower operating costs and clean benefits to the environment
- Insights on applications of Microturbines fuelled by CBM
- Operational and cost benefits for the CBM operator

**Lee Richards**, *Director of Sales Asia, Capstone Turbine Corporation, Singapore*

5.30 **Chairman's Summary**

End of Conference Day One

8.30 **Morning Coffee**

9.00 **Chairman's Opening Remarks:**

**Peter Cockcroft**, *Managing Director, European Gas & Chairman, Blue Energy, Australia*

**Special Focus China CBM Business Models & Project Updates**

9.10 **An Integrated Gas Business Model for CBM Commercialization in China**

- Overview of CBM assets and current update on projects
- Technology, drilling commitment and strategy for CBM development
- Investment in gas pipelines and distribution for strategic access to gas markets
- CNG, LNG and gas retailing

**Kiam Poon Tee**, *CEO, Fortune Oil, China*

9.50 **Current Update on the Qinshui Basin ECBM Project & the Xinjiang CBM Project in China**

- Overview of projects and key developments over the past year
- Updates on drilling program and appraisals
- Preliminary results from pilot development
- Milestones to achieve commercial production

**Kenny Chan**, *Chairman, Enviro Energy, China*

10.30 **Morning Networking & Refreshment Break**

11.00 **New Developments in Production from the Shouyang Block, Shanxi Province CBM Project & Accessibility of China's Gas Market**

- Shouyang, Shanxi pilot area update
- Increasing gas production and milestones for the next 18 months
- Current update on new producing coal seams
- Gas sales agreements in place
- Market access and pipeline sales

**Michael McElwrath**, *CEO & President, Far East Energy Corporation, China*

11.40 **Latest Developments in the Mabi CBM Block in China**

- Preliminary results of evaluations so far
- Strategy for development
- Access to market
- Next steps

**Pierce Li**, *Vice President Business Development, Asian American Gas, China\**

12.30 **Networking Luncheon**

*"We have been delighted to be part of IBC's annual CBM conference year after year since its launch in 2008. This conference has helped to extend our reach to potential clients and has kept us up to date with key unconventional gas market updates"* ~ **David Yip**, *Chief Financial Director, Enviro Energy*

Choose your own sessions from two different streams

**Stream A: CBM Market Outlook & Commercial Opportunities**

Chairman:

**Peter Cockcroft**, *Managing Director, European Gas & Chairman, Blue Energy, Australia*

2.00 **Developments in Indonesia's Tax & Fiscal Framework for CBM Investors**

- Political reform
- Economic developments in Indonesia
- Tax, financial and investment requirements
- Fiscal policy and incentives driving upstream and downstream gas development to meet energy targets
- Private investment in CBM and related gas infrastructure: pipelines, gas fired power generation and LNG terminals

**Mr Askolani**, *Director Budget Policy, Fiscal Policy Office, Ministry of Finance, Indonesia*

2.45 **Partnerships & Foreign Cooperation for CBM Development in China**

- China's 12th 5 Year Energy Plan and the role of CBM
- CUCBM's role in China's CBM development
- Updates on unexplored areas and new PSCs
- Opportunities for the foreign CBM developer

**Fu Xiaokang**, *Director International Cooperation, China United Coalbed Methane (CUCBM), China*

3.30 **Afternoon Networking & Refreshment Break**

4.00 **Partnerships with Coal Concession Holders for the Simultaneous Extraction of CBM**

- Overview of the regulations for the simultaneous extraction of CBM in China
- Objectives to make coal mining safe and reduce greenhouse gases
- Working with coal concession owners

**Huang Shengchu**, *President, China Coal Information Institute, China*

**Sang Fengyun**, *Project Manager/Principal Research Fellow China Coal Bed Methane Clearinghouse, China Coal Information Institute, China*

4.45 **Project Finance & Risk Management**

- CBM has traditionally been on the fringe of comfort for financiers- has the situation changed?
- Examining debt and equity for CBM projects
- Risk assessment and management for the bankability of CBM projects
- Evaluating the right sponsors, with the right technical expertise and ensuring the right scale of project
- Due diligence for cash flows

5.30 **Chairman's Summary**

**Stream B: CBM Field Development**

Chairman:

**Rod Bresnehan**, *Principal Consultant – Petroleum Engineering, Bresnehan & Associates, Australia*

2.00 **CBM Water Management & Environment**

- Meeting environment, health and safety standards
- Effective water management and disposal options
- Accurately estimating water production rates, volumes, composition and disposal to capture true economics of the CBM reservoir
- Compatibility of reinjection with subsurface formation
- Costs and impact on CBM economics

**Dr Larry Ryan**, *Water Treatment Business Manager, Halliburton, Global*

2.45 **CBM Surface Production & Facilities Management for Maximum Gas Flows**

- Schematic of a typical CBM production facility
- Well surveillance
- Adequate measurement equipment
- Modeling for well management
- Compression strategy
- Automation to extend CBM production life

**Vilas Tawde**, *General Manager (Surface Facilities), Essar Exploration & Production, India*

3.30 **Afternoon Networking & Refreshment Break**

4.00 **Understanding Coal Permeability: the Key to Accurate CBM Production Forecasts**

- Coal maturation and permeability variation
- Favourable affects of coal permeability and strategies for control
- Achieving accurate production forecasts

**Robert Gales**, *VP Unconventional Gas Projects, Weatherford, Middle East\**

4.45 **CBM Field Development & Unique Geological Characteristics in Asia**

- Comparative examination of CBM field development with insight from China, Europe, Indonesia & Australia
- Best field methods and practices for Asia-Pacific to adopt
- Overview of the technical problems experienced associated with CBM development
- Strategies and technology for field development taking into account unique geological characteristics
- Key lessons, where the gaps are and how they can be filled

**Rod Bresnehan**, *Principal Consultant – Petroleum Engineering, Bresnehan & Associates, Australia*

5.30 **Chairman's Summary**

Programme-at-a-Glance

Monday 11 July 2011		Tuesday 12 July 2011		Wednesday 13 July 2011		Thursday 14 July 2011
Pre- Conference Symposium	Pre- Conference Workshop	4th Annual CBM Conference				Post-Conference Workshop
Investing & Acquiring Unconventional Gas Assets	CBM Water & Environment Management	Day One Plenary Sessions: Asia-Pacific Outlook on Natural Gas Strategic CBM Business Models & Project Updates from India, Indonesia & Australia		Day Two Plenary Sessions: Special Focus China CBM Business Models & Project Updates		Appraising & Developing CBM Reservoirs
		Networking Luncheon				
		Stream A: CBM Market Outlook & Commercial Opportunities	Stream B: CBM Field Development	Stream A: CBM Market Outlook & Commercial Opportunities	Stream B: CBM Field Development	

“CBM production in Australia, China, India, and Indonesia is expected to witness a significant increase by 2015... The total CBM production from these countries will increase from the current 14.9 million (MMscmd) in 2009 to 64.9 MMscmd in 2015 reflecting a four-fold growth in CBM Production” ~ Global Data, December 2010

Uncover CBM Opportunities Across Asia-Pacific At This 4th Annual CBM Conference!

INDONESIA:

- With an estimated 450tcf resources, over 20 CBM PSCs have been awarded with opportunities for further investment.
- Find out the latest developments in Indonesia’s fiscal incentives and favorable investment climate from the Ministry of Finance Indonesia
- Latest update on Indonesia’s first CBM project from PT Ephindo

CHINA:

- Since CUCBM’s split in 2009 investment and technology needed to scale up CBM production has fallen short of expectations.
- With the Central Government’s 12th Five Year Plan 2011 – 2015, CBM production will need to double its output by 2015. How will China reach its ambitious targets? Find out priorities addressed by NDRC & CUCBM at this forum.

AUSTRALIA:

- The booming CBM- LNG sector in Australia is still attracting investment with major NOCs like Sinopec and CNOOC’s latest stake in Australia Pacific LNG, indicating the Chinese and overseas investor appetite
- Learn more about Queensland Australia’s CBM sector with updates from Blue Energy & Molopo Energy

INDIA:

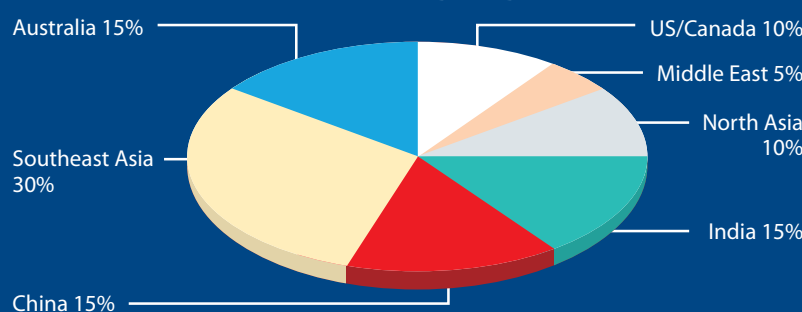

- India is steadily developing CBM assets with four rounds of bidding successfully completed.
- Great Eastern Energy Corporation snapped up the Mannargudi Block and is set to start with 50 exploratory wells and 30 production wells. Prashant Modi, President & COO will give you insight on commercializing CBM in India

Key Conference Themes To Be Addressed Include:

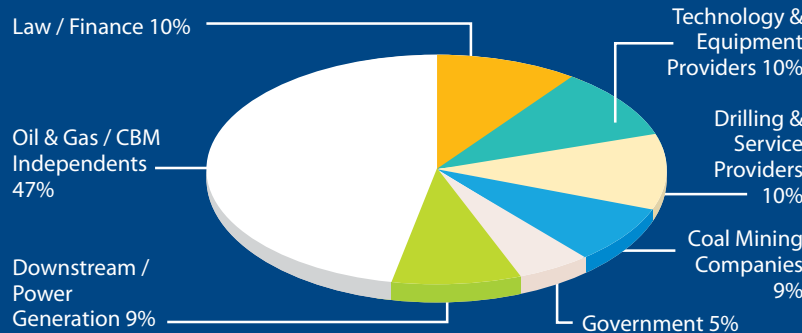

- Asia Pacific outlook on natural gas & LNG
- Strategic CBM business models & new CBM project updates from Australia, China, Indonesia & India
- Funding CBM companies and projects
- The role of CBM in the future energy mix
- Asia CBM fiscal policies & investment environment
- Evaluating evolving gas markets for key CBM sectors
- Partnerships & stakeholder management for CBM development
- Appraising & developing CBM reservoirs
- Drilling strategies & new techniques
- Production & completion strategies & technology
- Acquiring & investing in unconventional gas assets
- Advanced CBM technology
- CBM water & environment management

Who will Attend

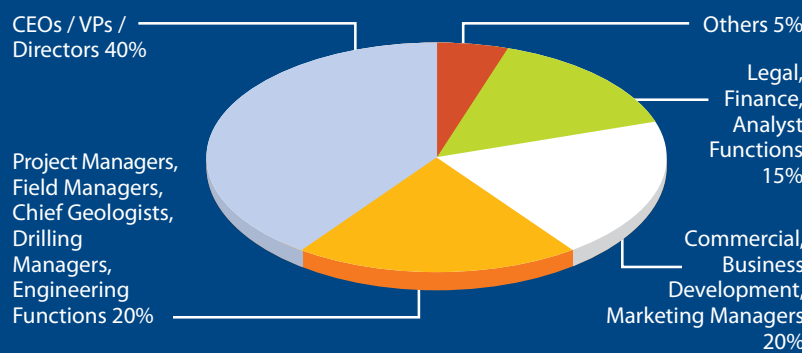

Geographical Representation From Key CBM Resource Markets, Plus Key Buyers:

Industry Representation From The Complete CBM Value Chain:

Attracting C-Level Through To Entire CBM Teams:

Why You Should Be Sponsoring/Exhibiting At This Year’s CBM Conference:

- This is the 4th Year running with a strong following from previous years
- C-Level/Vice Presidents and key decision makers from top majors & independent CBM E&P companies will be present
- 70% of delegates will come from key Asia Pacific CBM markets: Australia, Indonesia, China and India
- 70% of delegates will come from Oil & Gas, Independent CBM & Coal Mining Companies
- Showcase your expertise, services and technology from CBM reservoir development to production

The 4th Annual CBM Conference will provide you with the opportunity to position your brand in front of senior level decision makers from the Asia Pacific CBM industry. Our customized sponsorship and exhibition packages are designed to enable companies to stamp their mark in the industry and create new and beneficial business development opportunities.

To discuss options and opportunities, please contact: Ms Catherine Wong

+65 6508 2469 Catherine.wong@ibcasia.com.sg

Companies that Previously Attended CBM Conferences Include:

Dart Energy • China United Coalbed Methane Corporation CUCBM • Exxon Mobil • Arrow Energy • Blue Energy • Shell China E&P • Shell Global Solutions • Can-Elite Energy • BP Indonesia • EPHINDO • Molopo Australia • ONGC • Pertamina • Shell • TOTAL E&P China • Petrovietnam Gas Corporation • PTT International • Inpex Corporation • Star Energy • Pacific Asia Petroleum • Petronas • Medco Energi • Perusahaan Gas Negara PGN • Ministry of Coal India • Department of Energy & Mineral Resources Indonesia • Alberta Research Council • Green Dragon Gas • Great Eastern Energy Corporation • Essar Exploration & Production • ANZ • Asian American Gas • Baring Private Equity • Central Mine Planning & Design Institute • ABB • Coal Gas Solutions • CS Gas • Eastern Star Gas • Enviro Energy • Far East Energy • Inpex Corporation • Japan Oil Gas & Metals National Corporation • Liquefied Natural Gas Ltd • PT Seamgas Indonesia • Scientific Drilling International • Sino Gas & Energy • SP Power Grid • Standard Chartered Bank • BNP Paribas • ING • Mitsubishi Corporation • PTT PLC • Petronas Carigali • Churchill Mining • GS Caltex Corporation • Sinochem Group • Societe Generale • Lucas Mitchell • Mitchell Drilling Corporation • Caterpillar • Cameron • Emerson Climate Technologies • AJ Lucas Group • Clarke Energy China • Arc Fluids & Technology • Kaltim Prima Coal • Metgasco • China Coal Information Institute • Lemigas • Bukit Asam • PTT E&P • Fortune Oil • Maxidrill Indonesia • JTC Corporation • KS Energy Services • Credit Suisse • Banpu Minerals Company • AJM Petroleum Consultants • Star Energy • Icon Energy • Howden Compressors • Tancy Instrument • Welldog • Technip • GE Energy
